

1. Select the *guide* button on your remote.
2. Navigate through the guide to find a episode from the series you'd like to record
Note: you must find the program before it airs, it cannot currently be on live TV. For example; if you'd like to record Ellen at 10am everyday, you must set the recording before 10am.
3. Select the program by clicking *OK* on your remote.
4. Navigate to the *Record Series* option on the pop up menu.
5. If you would only like New Episodes of this program to record, navigate up to the Episodes line on the menu and click *OK* on your remote. Scroll up to the *New Only* option and click *OK* again. Navigate down to the *OK* option on the pop up menu.
This helps to preserve space on your PVR and avoids getting multiple copies of the same episode.
6. You will now see the Red Record icon on your guide beside your series.
7. To double check it is set to record everyday click the *List* or *Movie Film* icon on your remote.
8. Navigate to *To Record* and you will see your upcoming recordings to the right.
