

CENTRAL HURON SECONDARY SCHOOL

Course Outline TGR3M 2015-2016

Communication Technologies

Radio, Audio and Sound Production

Level: 3.0

Credit Value: 1

Prerequisite: None

Teacher: Ms. Vercruyssen

Course Overview: This course examines communications technology from a media perspective. Students will develop knowledge and skills as they design and produce media projects in the areas of live, recorded, and graphic communications. These areas may include TV, video, and movie production; radio and audio production; print and graphic communications; photography; digital imaging; broadcast journalism; and interactive new media. Students will also develop an awareness of related environmental and societal issues and explore college and university programs and career opportunities in the various communications technology fields.
