Central Huron Secondary School

Princess Street
Clinton, ON

Name: _____
Date: Sunday, March 20, 2011
Teacher: Mrs. Vercruyssen
Course: Communications Technology, Grade 12, University/College Preparation, Grade 12 Photography Focus Course

Lighting Assignment

Apply lighting techniques to compose and shoot 4 photos. Each photo must have a write up with it that discusses the lighting technique and the camera settings used.

Expectations: 12A1, 12A2, 12A3, 12B3, 12D1, 12A1.1, 12A1.3, 12A2.1, 12A3.1, 12B3.1, 12B3.2, 12B3.3

Criteria	Level 4 (80% - 100%)	Level 3 (70% - 79%)	Level 2 (60% - 69%)	Level 1 (50% - 59%)
Knowledge and Understanding				
demonstrate an understanding of video/photography or animation techniques	demonstrates a thorough understanding of video/photography or animation techniques	demonstrates considerable understanding of video/photography or animation techniques	demonstrates some understanding of video/photography or animation techniques	demonstrates limited understanding of video/photography or animation techniques
demonstrates an understanding software application	demonstrates a thorough understanding of software application	demonstrates considerable understanding of software application	demonstrates some understanding of software application	demonstrates limited understanding of software application
develop troubleshooting skills	demonstrates a high degree of troubleshooting skills	demonstrates considerable troubleshooting skills	demonstrates some troubleshooting skills	demonstrates limited troubleshooting skills
Thinking				
assess personal communication technology skills	assesses personal communication technology skills with thoughtful insight	assesses personal communication technology skills with considerable insight	assesses personal communication technology skills with some insight	assesses personal communication technology skills with limited insight
Communication				
develop the technical vocabulary used in communications	develops the technical vocabulary used in communications to a excellent degree	develops the technical vocabulary used in communications to a good degree	develops the technical vocabulary used in communications to an adequate degree	develops the technical vocabulary used in communications to a limited degree
Application				
apply safe work practices	always or almost always applies safe work practices	often applies safe work practices	sometimes applies safe work practices	rarely applies safe work practices
apply scientific principles related to light, colour, magnetism and electricity	demonstrates a high level of ability to apply scientific principles related to light, colour, magnetism and electricity	demonstrates considerable ability to apply scientific principles related to light, colour, magnetism and electricity	demonstrates some ability to apply scientific principles related to light, colour, magnetism and electricity	demonstrates limited ability to apply scientific principles related to light, colour, magnetism and electricity
apply time management skills, including appropriate software, to meet deadlines	demonstrates a high level of ability to apply time management skills, including appropriate software, to meet deadlines	demonstrates considerable ability to apply time management skills, including appropriate software, to meet deadlines	demonstrates some ability to apply time management skills, including appropriate software, to meet deadlines	demonstrates limited ability to apply time management skills, including appropriate software, to meet deadlines

demonstrate safe use of equipment, materials and processes	routinely uses and promotes use of equipment, materials and processes safely	often uses equipment, materials and processes safely	occasionally uses equipment, materials and processes safely	infrequently uses equipment, materials and processes safely
demonstrate skills required to complete communication technology projects	demonstrates expert skills required to complete communication technology projects	demonstrates considerable skills required to complete communication technology projects	demonstrates some skills required to complete communication technology projects	demonstrates limited skills required to complete communication technology projects
set up and operate components and systems for productions	demonstrates a high level of ability to set up and operate components and systems for productions	demonstrates considerable ability to set up and operate components and systems for productions	demonstrates some ability to set up and operate components and systems for productions	demonstrates limited ability to set up and operate components and systems for productions
troubleshoot components of communications systems	demonstrates thorough ability to troubleshoot components of communications systems	demonstrates considerable ability to troubleshoot components of communications systems	demonstrates some ability to troubleshoot components of communications systems	demonstrates limited ability to troubleshoot components of communications systems
use time management skills to complete projects	always or almost always uses time management skills to complete projects	often uses time management skills to complete projects	sometimes uses time management skills to complete projects	rarely uses time management skills to complete projects
